# JIRR BUSH MEDIJIN

GROWING STRONGBALA WAY

CULTURAL WELLBEING. HEALING. SHARING.

## JIRR BUSH MEDIJIN

For tens of thousands of years our ancestors used native plants for medicinal and healing purposes. Today, we blend our traditions with the modern to make beautiful balms to help heal and refresh your mind, body and spirit.

Jirr is a ceremonial plant used to help make young babies spiritually and physically strong throughout their life. Its leaves have been used for generations to relieve colds, flu and headaches. Blended with hot water, its antibacterial properties assist in reducing inflammation and soothing the skin.

Using traditional knowledge from our elders, we've created a beautiful balm with a sweet, subtle fragrance designed to assist in a variety of ailments - from headaches to skin problems - as well as bring some luxury in everyday use.

Bush Medijin has a unique way of working with what your body needs - from skin conditions, to aches, pain or stress. Connecting to nature as the nurturer.

**Ingredients:** Jirr (Native Lemongrass, *Cymbopogon bombycinus*), Olive Oil, Beeswax
