CULTURAL WELLBEING. HEALING. SHARING.

## KORLK KORLK BUSH MEDIJIN

For tens of thousands of years our ancestors used native plants for medicinal and healing purposes. Today, we blend our traditions with the modern to make beautiful balms to help heal and refresh your mind, body and spirit.

Korlk Korlk is the scent of the Australian bush - eucalyptus. Our old people used this natural native in a multitude of ways - for baby baths, for treating skin conditions and to help clear cold and flu congestion.

Infused with this natural bush aroma, our nourishing balm can be used to help relieve muscle tension, aches and pains, and ease the symptoms of colds and flu and soothe skin sores and irritation. Its refreshing scent is reinvigorating.

Bush Medijin has a unique way of working with what your body needs - from skin conditions, to aches, pain or stress. Connecting to nature as the nurturer.

**Ingredients:** Korlk Korlk (River red gum, *Eucalyptus camaldulensis*), Olive Oil, Beeswax
